Event Proposal

**INTERNATIONAL DAY AGAINST DRUG ABUSE
AND ILLICIT TRAFFICKING**

Event Name: Departmental Event

Event Title: International Day Against Drug Abuse and Illicit Trafficking

Faculty coordinator: Mrs. Manjusha

Guest Speaker: Dr. Rajasekhara Chikati

Date : 26th June 2021

Duration: 10:00AM to 12:00 Noon

Venue: Online

Target audience: UG and PG students

Platform: Microsoft Teams

Level: College level

Students Volunteers: Geervani (MSc2nd year), Vidhi (MiGC3A)

Objective: The event is scheduled on the occasion of International Day Against Drug Abuse and Illicit Trafficking. The purpose of organizing the online event is to create awareness on the use of illegal drugs which impacts the life style of human.

Proposed activities:

Webinar on International Day Against Drug Abuse and Illicit Trafficking

Poster Presentation

Power Point presentation

Online quiz

NAME OF THE EVENT	Departmental Event
TYPE OF EVENT	Webinar
EVENT TITLE	International Day Against Drug Abuse and Illicit Trafficking
SPEAKER	Dr. Rajasekhar Chikati
TYPE OF EVENT	College Event
FACULTY INCHARGE	Mrs. Manjusha
DEPARTMENT	Microbiology
DATE	26 th June 2021
VENUE	Online through Microsoft Teams (10 AM to 12 Noon)
TARGET AUDIENCE	PG and UG Students and Faculty

OBJECTIVE:

The event is arranged on the occasion of International Day Against Drug Abuse and Illicit Trafficking. The purpose of organizing the online event to create awareness on the use of illegal drugs which impacts life style of human.

BRIEF ABOUT THE EVENT

The webinar was organized by the Department of Microbiology at Aurora's Degree and PG College on the occasion of International Day Against Drug Abuse and Illicit Trafficking to create public awareness on health, protective measures for staying healthy, and most importantly, on protecting each other. The lecture focused to inform people about the problems faced by society due to illegal drugs as well as solutions for treatment to fight against the problem all over the world.

OUT COMES

The guest lecture on Microsoft team's platform was delivered by Dr. Rajasekhar Chikati who is a very prominent researcher in Bioinformatics and Molecular Biology and has extensively worked on Evaluation of RNase and Phytol as cytoskeleton targeting elements in Cancer. The online meet has certainly provided the following

- Commonly abused household substances
- Golden triangle and golden crescent
- Club Drugs
- Prevention of drug abuse
- Licit pharmaceutical diversions
- Illicit cultivation

- Current and future challenges in India
- Diagnosis and treatment
- Drug prevention program

PHOTOGRAPHS

The screenshot shows a Microsoft Teams meeting interface. The main content is a slide titled "Club Drugs" with the following text:

Designer drugs and rave parties: Also called 'club drugs' because of their **use in clubs**, these drugs are made in such a manner that they mimic the pharmacological effects of the original drug thereby avoiding classification as illegal.

MDMA, Ketamin, GHB, Rohypnol, LSD etc are therefore popular in rave parties perhaps because **they escape detection in standard drug tests.**

Another drug known as **silocybin**, sourced from a **certain variety of mushroom**, is said to be commonly in vogue in rave parties

The estimate of global drug trade is of the order of **\$360 billion** contributed by:

- Heroin** - \$100-110 billion
- Cocaine** - \$110-130 billion
- Cannabis** - \$75 billion and
- synthetic drugs** \$60 billion.

The slide also features a yellow highlight on "use in clubs" and "they escape detection in standard drug tests." A notification "Your microphone is muted." is visible over the slide content.

The Teams interface includes a top navigation bar with "Recording has started" and "Dismiss" buttons. A "People" panel on the right lists participants: Manjusha Kora (Organizer), Adepu Ramya, Balaka Manisha, Bandari Suvamala Suniyam, Bandari Varsha, Banoth Swathi, budigapaka anil, C Ragini, and Ch Divyarani. The bottom of the screen shows a Windows taskbar with the date 26-06-2021 and time 10:49.

Microsoft Teams interface showing a meeting in progress. The browser tabs include "INVITATION FOR THE EVENT-26", "Blank Quiz - Google Forms", "International Day against", and "(4) WhatsApp". PARAGRAPH ABOUT THE PROCEEDINGS

On 26 June, every year International Day against Drug Abuse and Illicit Trafficking is observed to spread awareness about the extreme cultural and economic harm the trade is still doing across the globe. It is necessary to strengthen global action and cooperation to achieve the goal of an international society of drug abuse.

Celebrated each year on June 26th, the UN Office on Drugs and Crime uses the commemorative day to highlight the dangers of drug use and their illegal trade and provides educational material to teachers and public officials all over the world to help spread the message about the extreme cultural and economic harm the trade in drugs is still doing across the globe one hundred years after the war on drugs was initially launched in Shanghai around the start of the 20th Century.

The importance of the strategy was reinforced when the UN decided to hold a General Assembly on drugs to mark a milestone in the progress of an earlier policy document which called on members states to combat both drug demand and supply, while improving access to treatment for addicts.

If we will not reduce the demand for illicit drugs, we can never fully tackle cultivation, production or trafficking. To tackle the problem that illicit drugs is supported by communities, different organisations and people from all over the world. The main principle of them is to protect the youth and to promote welfare to human kind.

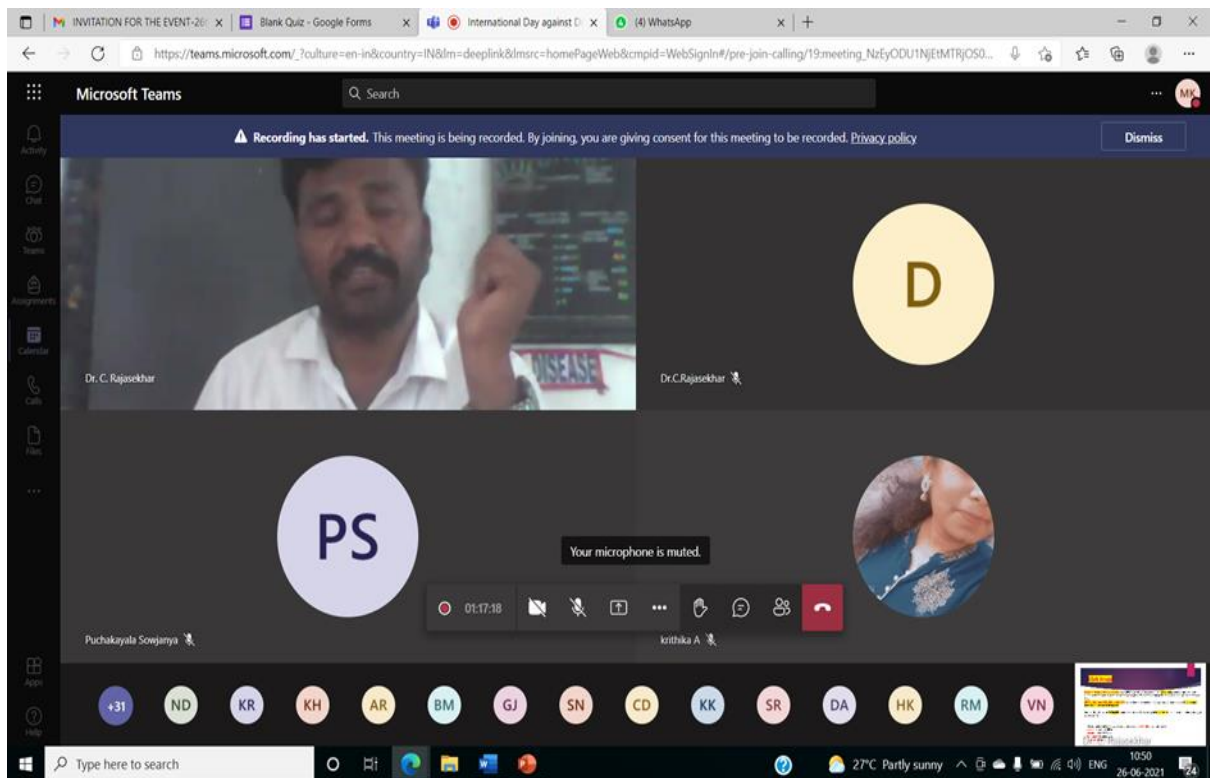

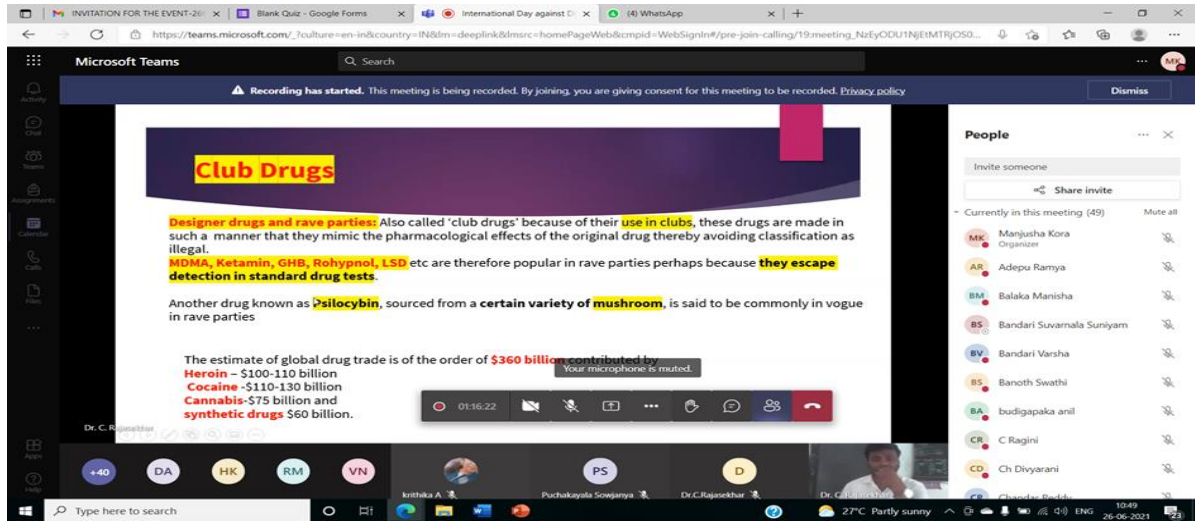

According to United Nations Office on Drugs and Crime (UNODC) executive director “By listening to the needs of children and young people, prevention can contribute to their safety, health and well-being, and enable them realize their potential. All our societies would be better off if more resources were devoted to supporting evidence-based drug prevention strategies, which are a sound and effective investment in families, schools and communities”.

Also, Research suggests that early-to late adolescence is a critical risk period for the initiation of substance use. To grow healthy and safe life for young people it is necessary to break the chain of social, neurological and psychological factors and inequalities that can increase susceptibility to drug use disorders.

Therefore, we can say that International Day against drug abuse and illicit trafficking is celebrated to spread awareness about the drug abuse and its side effects that not only affects the individual health but as a whole society, family etc.

GUEST PROFILE

Dr. Rajasekhar Chikati
Academic Consultant Department of Biochemistry,
Yogi Vemana University, Kadapa, Andhra Pradesh, India

Dr. Rajasekhar Chikati, he pursued **graduation** in ‘Biotechnology, Botany and Chemistry’ at Govt Degree College (for Men) in Kurnool, affiliated to Sri Krishna Devaraya University, Anantapuram, Andhra Pradesh in 2003. Following this, he earned a **Master degree** in Biochemistry from Sri Krishana Devaraya University, Anantapuram, Andhra Pradesh. He qualified Graduate Aptitude Test (**GATE-2007**) in Life Sciences; and joined for a **Master of Philosophy** in Biochemistry from Sri Krishana Devaraya University, Anantapuram, Andhra Pradesh. And continued **2009-2014 for Ph.D., in Biochemistry** with specialization in **Cancer Biology and Bioinformatics** under the supervision of **Prof., Chitta Suresh Kumar**, DBT-Bioinformatics Infrastructure Facility, Dept of Biochemistry, Sri Krishnadevaraya University, Anantapur, A.P, INDIA. **Thesis Title : Molecular Studies on Evaluation of RNase and Phytol as cytoskeleton targeting elements in Cancer.**

He got Ph.D awarded in 25th February 2014 later in joined as **UGC- Dr. S. Kohari Post Doctoral Fellow, under Mentorship of Dr. Surya S. Singh, Department of Biochemistry, University College of Sciences, Osmania University, Hyderabad, Andhra Pradesh, India, PDF Topic: Design, Synthesis and Molecular Evaluation of EGCG Analogues on Apoptosis Regulated Proteins and Transcriptional factors involved in Tumorigenesis** and now working as **Asst Professor on Contract basis in Department of Biochemistry.** He Published More than **20 Research Articles** in reputed International Journals like Elsevier, Springer, Taylor & Francies, conducted more than 15 workshops in Bioinformatics, gave guidance to the projects students (65 students). Delivered many lectures in different colleges/institutes for both UG & PG.

Circular

I would like to formally notify and invite you all for the online event scheduled on Microsoft teams on the occasion of "International Day against Drug Abuse and Illicit Trafficking" on the 26th of June 2021 (Saturday). Addiction of alcohol , tobacco or drug effects common life, but with right counselling and efforts it can be over come addiction of any form that may impact life as normal .The purpose of organizing the online event to create awareness on the use of illegal drugs or the use of prescription or over-the-counter drugs for purposes other than those for which they are meant to be used, or in excessive amounts as it may lead to social, physical, emotional, and job-related problems. The event commences at 10.00 AM and will last for a couple of hours (10.00AM to 12.00 noon). So I urge you all to grace the event by your presence and make it a success.

Mrs. Padma

Head, Department of Microbiology
